

Name

Adrian (Adie) Doyle

Role with the FoHMP

Website Editor

Role(s) outside of FoHMP

At my last place, I worked as a Preventive Conservator at the British Museum and became the Integrated Pest Management (IPM) Manager in the Facilities Management department until my retirement 2022.

I am a member of the UK Integrated Pest Management (Pest Odyssey) Executive Committee

Park passions

Helping to keep the park and wetlands a safe place for wildlife and a sanctuary for people to enjoy away from the normal pressures we all face. To help with monitoring the wetlands to prevent pollution from entering the system and going through to other rivers.

Day to day role and what it involves.

Editing the website with Stephen to put interesting and informative articles for download as well as maintaining a good resource for events and activities.

Something people may not know about you, or that's interesting.

I was on a team which excavated a new dinosaur in 1983 (*Baryonyx Walkerii*) which took over 10 years to remove from the matrix in the laboratory at the Natural History Museum. I have published over 11 papers on Museum Conservation. I represented Collections at the Funeral of Princess Diana walking behind the gun carriage which was incredible moving experience.
